

BUSINESS QUOTATION

MANTIS KRAFT

Modern Automation & Next-Generation
Technology for Intelligent Systems

Institutional Automation & Digital Operations
Suite

PREPARED FOR: Marathwada Mitra Mandal College of Commerce

PREPARED BY: MANTIS KRAFT

Product and Cost (Individual and Total)

PRODUCTS	COST (INR)
1) AI RAG Chatbot System	₹ 4,80,000
2) Automated Timetable Generation System	₹ 4,20,000
3) Anti-Proxy Attendance System	₹ 6,24,999
Total	<u>₹15,24,999</u>

Complete Software Package- Bundle Price

Final Project Price (All Inclusive): ₹12,24,999

Special Discount for MMCC: ₹3,00,000

Annual Maintenance Cost (For all 3 Products)

Service	Cost (INR)
Infrastructure & Hosting	₹80,000
Technical Support	₹ 50,000
Bug Fixes & Maintenance	₹ 30,000
Security Management	₹ 20,000
Backup & Disaster Recovery	₹ 20,000
Minor Enhancements	₹ 30,000
Monitoring & Administration	₹ 20,000
Annual Maintenance Cost (AMC)	<u>₹2,50,000</u>

COMPONENT	What You Will Get	AMOUNT (INR)
Enterprise Institutional License	Lifetime Software License within The institution.	₹8,49,999
Deployment & Configuration	Installation & Setup based on Institution requirements.	₹1,50,000
Data Migration & Testing	Data Transfer ,Data setup & Testing	₹1,00,000
Training & Go-Live Support	Staff training, user guidance, and support during the software launch.	₹1,25,000
Standard Project Valuation	Final project cost, including implementation and first-year services.	<u>₹12,24,999</u>
Year 1 Operational Support	One year of technical support, software updates, and bug fixes.	Included

ENTERPRISE LICENSING TERMS & IP FRAMEWORK

To preserve clarity and establish absolute legal separation between asset consumption rights and core code ownership, all deliverables are bounded tightly by standard corporate software provisioning conditions:

INTELLECTUAL PROPERTY & LICENSING FRAMEWORK (NON-TRANSFERABLE)

- **Retention of Intellectual Property:** This commercial proposal constitutes an explicit license to use the system suite, **never a transfer of underlying ownership or intellectual property**. The underlying source code, algorithmic logic, database schemas, functional design patterns, UX assets, and engineering architecture remain the exclusive, absolute property of Mantis Kraft.
- **Scope of Right to Use:** The institution is granted a perpetual, non-transferable, non-assignable, and non-exclusive license strictly dedicated to driving its internal academic, operational, and student management administrative workflows within the designated campus boundary.
- **Strict Structural Constraints:** The software, binary builds, source modifications, or accompanying engineering documentation may not be systematically duplicated, reverse-engineered, decompiled, sublicensed, redistributed, or sold to any third-party institution or entity without explicit, upfront written validation and legally signed authorization from Mantis Kraft.
